WHO STARTED MOONLIGHT SCHOOLS.

We see where Mrs. Alice Spencer Geddes Lloyd, of Boston, who in 1916 located at Ivis, Knott County, Kentucky, and started a small settlement has had circulated through the press of other states, the statement that she is the founder of the moonlight schools. It may not matter so much that she challenges the claim of Mrs. Cora Wilson Stewart, whom the world honors as the real founder of the moonlight schools, but it does matter to Kentucky that a Kentuckian born originated and gave the system to the world instead of a Boston woman who saw this state some five years after moonlight schools had been in operation, and after other states had adopted them. Also, it matters always that truth shall prevail. Mrs. Lloyd has a small center in Knott county where she is attempting to make a settlement. It is new. It is yet in the experimental stage. The press agent will not strengthen it by making absurd claims. Kentucky does not seek to claim that she founded Boston. It would be as true as for this woman from Boston to pose as the founder of moonlight schools.

In our office there is a picture of Mrs. Stewart, the real founder, taken shortly after she inaugurated the first moonlight school. Mrs. Stewart is a Kentuckian, a great educational figure, and should not be robbed of the honor which is justly hers.

SUCCESSFUL FAIR LAST WEEK.

The Ohio County fair, which began last Wednesday, came to a successful close Saturday. Although the weather was cold and inclement almost the entire time, the fair was a decided success. Dr. Bean had arranged an interesting program, including a number of races and other attractions, and these, combined with the exhibits and concessions, made a variety that appealed to all who attended.

The attendance during the first two days was somewhat smaller than was expected, owing to the cold, unpleasant weather, but during the latter part it was fully up to all expectations. The last day was pleasant and hundreds of people from all sections of the county met there, to renew acquaintances and enjoy the program of the day.

Dr. Bean is an experienced fair manager and demonstrated his ability by staging two successful fairs in one season—one July, 4th, and the one of last week. He also has charge of the fair now going on at Owensboro.

MADE A CAPTAIN.

First Lieutenant M. M. Dexter, Dental Reserve Corps, U. S. Army has been promoted to the rank of Captain in that Corps. Dr. Dexter is Captain in that Corps. Dr. Dexter is a graduate of the Louisville College of Dentistry, Class, 1905, and has had much experience in the dental department of the army, having been in the Service most 10 years. Captain Dexter spent 26 months in the Philippines Islands, after which he was ordered to Jefferson Barracks, Mo., and remained there until recently. He was then ordered to Camp Gatum, Canal Zone, where he is now stationed. Captain Dexter is the son of J. S. Dexter, of Centertown, Ky., and never fails to insist every time he writes home on the people in Old Ohio County taking all the Liberty Bonds and W. S. S. they possibly can. Says the boys sure do need our assistance.

FORDSVILLE BOY WOUNDED.

In the casualty list published in the Memphis Commercial Appeal, appeared the name of Leslie D. Jones, of Fordsville, who was reported severely wounded in action in France. Mr. Jones is the son of Mr. Ligo Jones, of Oak's station near Fordsville, and is about 20 years of age. He left sometime last March in one of the first quotas of the year. He was a drafted man. Before entering the service he was haggard on the L. H. & St. L. Railroad between Fordsville and Irvington.

BOY, 10, KILLS SELF WHEN TOLD TO GO TO SCHOOL.

Columbus, Ind.—When Henry Nicholson, ten-year-old son of Mrs. Mary Nicholson, near here, was told today that he must go to school he went into a room at his home and, taking a shotgun blew his head off. The boy used a single-barrel gun, which he discharged with his toe.

NINETEEN TRY FOR TEACHER'S CERTIFICATES.

The examination for certificates to teach in Ohio County, was held at the college building, Friday and Saturday, Sept. 20th and 21st. Nineteen teachers and aspirants took the examination. There were eighteen girls and women and only one man, Prof. C. E. Allen, of Fordsville. Several married ladies, whose husbands are in the service and who had given up teaching since their marriage, have resumed their profession and entered this examination. The oldest aspirant for a certificate was Mrs. Hortense R. Morrison, of Fordville, who taught several years ago, but has not been engaged in the work for several years. She is 45 years of age. The youngest one to try for a certificate was Miss Nellie Arnold, of Horse Branch, who was 18 only three days before the examination. The names of those who took the examination are as follows: Norman D. Ross, Centertown; Winnie Dean Moseley, Hartford; Hortense R. Morrison, Fordsville; Mayne Keown, Fordsville; Lena French, Prentiss; Elizabeth Daniel, Fordsville; Nellie Arnold, Horse Branch; Mrs. E. S. Howard, Hartford; Mrs. M. F. Faught, McHenry, R. 1; Mrs. Louanna Ford, Beaver Dam, R. 3; Clara Agnes Crabb, White Run; Alice Taylor, Hartford; Mary Humble, Narrows; Mrs. Pearl Ferguson, Horse Branch; Bertha Pentress, Barrett's Ferry; Mary Jane Maddox, Centertown; C. E. Allen, Fordsville; Ida Pearl Paris, Beaver Dam; Hazel Woosley, Narrows.

TO MINISTERS AND SUPERINTENDENTS.

Hartford, Ky., Sept. 18, 1918. Dear Brother:—You are well aware that our nation is making another call for subscriptions to meet the running expenses of this "world's war" that is now raging. You are aware that she is looking to the ministry to share in the responsibility. In this regard she has not been disappointed in other campaigns and in this her desire will be more than met and gladly.

Saturday, the 28th, the drive begins and as Chairman of the Ministerial end of this gigantic undertaking and at the suggestion of those to whom the whole campaign has been entrusted, I hereby call on you to rally all the forces at your command and publicly and privately call the attention of all your people to the importance of responding to the Nation's call now and in the most generous way possible, by subscribing for these bonds to the extent of their ability. Sunday, the 29th, has been set apart as publicity day and all our pastors and Sunday School superintendents have been asked to make public announcement of the fact. If you can possibly do so make your address on that day an appeal for prompt and generous response to the call that will make possible the winning of this war and that will provide food, clothing and shelter for our boys who are "over there" and the assurance that we are with them in this great conflict and that we are ready and are actually doing what we can to help them win this struggle for a world-wide Democracy.

Trusting that we shall have your fullest and heartiest co-operation and assuring you of our readiness and willingness to help.

We are yours sincerely,
A. D. Litchfield, Ch' m' n.

GOES TO CONFERENCE.

Off for Conference with every report full and overflowing. The year just closing has been one of unusual pleasure and profit. Congregations have been good, responses hearty and support generous. All outstanding obligations met, and generous repairs on houses of worship made. The morale of the membership is splendid, their faith and fervor reaching high tide at times. Thus ends the first year of mutual endeavor between Pastor Rev. A. D. Litchfield and his people composed of First church, Hartford, Goshen and Mt. Hermon congregations. The Conference convened this morning at 9:00 a. m. at Madisonville when some 300 ministers and 200 delegates and visitors will witness the opening ceremonies. The Conference will continue until Monday when the ministers will be assigned to their respective places of ministry for another year.

RED CROSS NOTES.

Mrs. W. J. Bean, Chairman of Woman's Work Division of the Ohio County Red Cross Chapter, has announced the appointment of Prof. J. E. Bruner, Mesdames Owen Hunter, A. C. Porter and Wilbur S. Tinsley as a committee to have charges of the clothing drive for the relief of the suffering people of Northern France and Belgium. Headquarters of the Local Chapter will be open as a collection point for all cast-off clothing received by the committee on Saturday, September 28th, 1918, and arrangements will be made for any clothing sent by the school children, during the drive, to be cared for at the school building, until said date.

Garments made of strong and durable materials are asked for. Garments need not be in perfect condition, but should be practical and clean so that the destitute women in the stricken countries can fashion new garments suited to the needs of the people, as soon as the shipments are received by the Relief Commission. Woolen goods of any kind, underclothing for all ages, coats, suits, sweaters, dresses, shoes, soft hats and caps, piece goods, cotton flannel and other kinds of cloth to make garments for babies; blankets, sheeting, ticking and scrap leather, in fact any material that can be utilized in making garments of any kind will be acceptable. It is hoped that the people will respond liberally to this cause.

COUNTY COURT NEWS.

There has been very little activity in the county court the last week. It seems the people of the county are too busy to commit misdeemeanors.

Warrants have been issued for H. J. Shields, Agnes Shields and Fannie Daugherty, all of the Select neighborhood, for threatening to injure person and property of H. D. Douglas. A petition has been filed in the county court for inquiry into the sanity of Caleb Bean. Doctors Duff, of Dundee, and D. H. Godsey, of Narrows, have been named as examiners to test his sanity before he is brought to trial. He will be tried Wednesday.

As the mother of Rex Ar buckle, who was recently accused of taking some tubes, I wish to say that he denies the charge. I feel sure that these charges and insinuations on the character of my son, were started for no other purpose than to get him away from Beaver Dam, as his competition was hurting the business of some transfer men. I can successfully prove that he was at home with me, and nowhere near where the tubes were when they were taken. Such charges should not be brought falsely, as they are calculated to injure the character of a young man.

LIBERTY LOAN CAMPAIGN.

For Ohio County, September 28th, to October 19th.

Plans.

1. Every business house in the county is asked to take volunteer applications from such of its patrons or customers as may ask to subscribe.
2. Every Coal Company doing business in the county is asked to cooperate with its employees in buying bonds. All the Railroads do this.
3. Every school teacher is asked to teach the children the meaning and the purpose of Liberty Bonds in a few minutes exercise held one day this week.
4. The two Singing Conventions next Sunday, one at Liberty and one at Beada—are asked to set aside at least 30 minutes for the singing of patriotic songs, all the choirs and persons present joining, and then to make a short announcement of the Liberty Loan Campaign.
5. Every Minister of the Gospel and Sunday school Supt. is asked to make a brief announcement of the Liberty Loan Campaign from the pulpit of the County next Sunday.
6. The County has been divided into several districts, with a local director over each district, and with an efficient corps of assistants, both men and women.
7. Every public man, lawyer, doctor, minister etc, is asked to lend his services and be a subscriber, a general solicitor and a bureau of information on the subject of Liberty Bonds.
8. Everybody is asked to take a friendly interest and do his patriotic duty.

The newspapers will do their part as usual.

J. H. BARNES, Chairman.
A. D. KICK, Director of Sales.
W. S. TINSLEY,
W. H. COOPER,
Directors of Publicity.

The following order has been received by the Local Board relative to persons appearing before the district board:

NOTICE.

On, and after October 8th, 1918, all cases coming before the District Board, Division No. 2, Western District, at Madisonville, Kentucky, either for classification or on motion to reopen will be heard and tried only on affidavits filed with the Board. No witnesses, unless summoned by the Board, will be allowed to testify orally before it, nor will any registrant be allowed to appear before the Board either in person or by attorney after said date.

WM. H. YOST,
Chairman, District Board.

SERVICE FLAG DEDICATED.

A beautiful service occurred at the auditorium of the Beaver Dam High school last Wednesday morning, when a service flag containing fifty-four stars, in honor of the former students of this school who are now in the service, was unveiled. Besides a number of patriotic addresses, songs were sung and all paid honor to the brave boys away in camp. The program rendered was as follows:

Song, "America" By the audience.

Scripture Reading, Rev. E. S. Moore.

Prayer, Rev. Hersh Shields.

Duet, "Over There" Misses Anna and Della Hazelrigg.

Address, Rev. Edgar Allen.

Song, "Canning the Kaiser" By the students.

Address, "Gone, but not Forgotten" Walter Casebier.

Song, "Keep the Home Fires Burning" By the students.

Address Mr. J. H. Barnes.

FALSELY ACCUSED.

MRS. ANNIE ARBUCKLE.

DRAINAGE TAX NOTICE.

At a meeting of the Board of Drainage Commissioners of Ohio County, Kentucky, held at Hartford, Kentucky on September 18, 1918, with all members present, it was ordered that an assessment or tax of Ten Per Centum, (10 per cent), based upon the original assessment for construction of said ditch or drain, be made and levied against the lands and landowners located within the R. H. MARTIN, ET AL. DRAINAGE DISTRICT, in Ohio County, Kentucky. Said assessment or tax hereby levied is to be used for the purpose of cleaning out and removing all obstructions from said ditch, making necessary repairs, for the maintenance of said District and for payment of any other legitimate expenses incurred.

The tax list and assessment roll has been placed in the hands of the County Treasurer, C. O. Hunter, to whom payment may be made on or before October 26, 1918, without additional cost. If said assessments are not paid within the time above specified, same will be put in the hands of the Sheriff to be collected in the same manner as State and County taxes.

Witness our hands, this September 25, 1918.

Must Pay For Your Paper

IF YOU GET IT, Uncle Sam Says

The government will soon compel all publishers to reduce the amount of newsprint they are using 15 per cent. In order to do this, Uncle Sam says that all subscriptions must be paid in advance, or else the paper stopped. No subscriber is permitted to receive a paper who is more than three months in arrears.

Look at Your Label Now--How Do You Stand?

As much as we dislike having to discontinue the papers of some of our readers, who we know are good, we will be compelled to do so under the new government ruling. If you want The Herald, it must be paid for in advance. Uncle Sam says so—it must be that way!

FIRST CALL UNDER THE NEXT DRAFT

For Men in Age of 19 and 20 and
32 to 36—Classification
Planned.

Washington, 18.—The first call to the colors under the new draft will be for men between the ages of 32 and 36 inclusive and 19 and 20 inclusive. Provost Marshal General Crowder announced the other day. It means that men of those ages are to be classified ahead of men over 36 and under 19. These men will receive their questionnaires ahead of the others. General Crowder believes the complete classification for them will not take more than a month and a half. It is expected to have some of these registrants, perhaps 1000,000 or more, ready for calls to the service beginning in October.

The fact that the local boards will devote first attention to the men within the age limits of the call means, of course, that men over 36 and the 18-year-old boys will for some weeks at least hear nothing from the Government.

Age Limit of Call.

What the next call will include, or whether men over 36 will go ahead of boys under 19 is not stated. For the present the attention of the nation should be devoted to men coming within the age limits of the first call.

In this connection, General Crowder has issued a statement to employers and other representatives of industry clearly and concisely outlining some of the fundamental duties which go with their share of responsibility in making the draft work out for the national good.

Emphasis is laid on the need which the Government has for the advice and assistance of these men in making a proper classification of registrants. It is pointed out that the district boards should be expected to award deferred classifications wisely and speedily if no assistance comes from the men competent to pass judgment on registrants in their employment with respect to their relationship to industry.

The Government wants these employers and representatives of industry to systematically and without delay devote themselves to the problem of ascertaining which men are and which men are not necessary, or, in other words, which men could ren-

der better service to the nation by entering the army than by remaining where they are.

Employer's Must Act.

Employers are expected to frankly claim deferred classification for the necessary men in necessary industries, whether the men themselves claim deferred classification or not. The men themselves are urged to make frank claims, if they feel entitled to deferred classification, and refusal to make such claims is referred to as "mistaken chivalry" in the Provost Marshal General's statement. This does not mean that men who feel they could render better service by joining the colors should hesitate in their choice, but it does mean that the prejudice which thousands have against claiming deferred classification should in the common interest, be done away with if the circumstances warrant.

No Great Delay.

The fact that the first call is for men between the ages of 32 and 36 and 19 and 20, inclusive does not mean that there will be great delay before the next call for the older and younger men is issued. The essence of the whole draft program is speed, and the army to be brought up to its needed 5,000,000 strength will have to include all Class 1 men of 18 to 45.

General Crowder said also that young men in the 19 to 20 classes will be accepted for induction into the students' army training corps, but the total authorized strength of this corps is 150,000, and the total registrants below 20 is more than 3,000,000.

He also pointed out that the total number of fit men to be expected from the classes over 32 was only 501,000, and repeated the statement that Class 1 would be almost completely exhausted by October 1.

VERSAILLES GIRL WEDS ARMY MAN AT MIDNIGHT.

Versailles, Ky.—There was a romantic wedding here at 12:30 o'clock Sunday morning, when Dr. Wallace Collins, of Lawrenceburg, of the army medical corps at Fort Oglethorpe, Ga., and Miss Lucile Hitt, daughter of William H. Hitt, a farmer of this county, were married by the Rev. Dr. M. D. Austin, of the Baptist church.

The bridegroom had only thirty-six hours' leave from camp. He reached Lawrenceburg on a belated train Saturday night, drove in an automobile to the bride's home, six miles south of Versailles, got Miss Hitt and her father and hurried to this city.

And the Yanks Are on Their Way

The Yanks are on their way. That is a statement which the Kaiser and his military leaders have dreaded hearing for more than a year—for well they know—it means the beginning of the end. It means that the lies fed to the German homefolks about American soldiers will be exposed in all their weakness; and that means a shattered morale. It means that the war is going to be carried "home" to Germany. Hunia is to know war as imposed upon Belgium and France for four years. A major American offensive has been started. The immediate objective will develop daily, but the ultimate objective is the Rhine industrial area. The Hun is now preparing for a new short western front line—"The Parsifal" line—from Antwerp to Metz. It means giving up all French territory and half of Belgium. But here's another thought—maybe our Yanks will refuse to stop at Metz.

21 GERMAN TOWNS BOMBED IN AUGUST.

London.—Twenty-one important German towns have been bombed by the British independent air force during August, according to information from an authoritative source. The objectives were railway stations, chemical and other factories and blast furnaces, and the towns included Frankfurt, Mannheim, Metz, Sablon, Saarburg, Thionville, three times each; Burbach, Coblenz, Cologne, Darmstadt, Karlsruhe, Luxemburg, Offenbourg and Treves.

The total weight of bombs dropped in these raids was more than 100 tons.

During the past three months the independent air force has made 249 aerial raids over German territory. The extensive damage done has been confirmed by photographs in many cases. The German territory thus brought definitely into the war zone represents a belt in the Rhine Valley approximately 250 miles in length.

DRAFTED MEN MAY BE PLACED IN THE NAVY.

Washington.—Occupational exemption and other draft problems were the subject of important conferences today among officials of branches of the government having to do directly with the conduct of the war. They were taken up at the weekly conference of such officials at the war department and are understood to have had the chief place on the programme for President Wilson's meeting with the war cabinet.

Secretary Daniels and Provost Marshal General Crowder conferred on plans being worked out for inducting the 15,000 men a month which, it is estimated, will be needed for the navy including the army transport and supply ships. Liberal provision is to be made for bringing into the navy men with special qualifications or strong desire for sea service.

Gen. March canceled his weekly conference with newspaper correspondents today on account of the press of his engagements.

EDITORS ASSURE GERMANS THEY WON ST. MIHIEL BATTLE.

Amsterdam.—The semi-official Cologne Gazette, sugar-coating the pill, says when the reports of the German airmen indicated that simultaneous attacks on a large scale were about to be made on the St. Mihiel salient, steps were taken to enable a withdrawal, which was effected. The newspaper asserts that the enemy's plan was to cut off the German divisions collected at the apex of the salient near St. Mihiel, but the plan did not succeed.

Franco-American enveloping attacks were wrecked, adds the Gazette and, with fine indifference to the prisoners lost, concludes:

"All German units were brought back without losses worth mentioning."

Undisturbed by Enemy.

The Rhenish Westphalian Zeitung likewise asserts that the withdrawal of the German troops was not disturbed by the enemy, and further sweetens the dose with one of the now usual explanations that the withdrawal leads to the shortening of the German line, and this leads to strengthening the front.

But the paper finally admits as a sort of afterthought that the Americans achieved some success near Thlaucourt "by which, it is said, we suffered a loss of prisoners and guns."

The Frankfurter Zeitung also supplies its readers, although in more restrained language, with inspired statements about the German higher command's long existing intention to evacuate the St. Mihiel salient. It expresses the belief that the Franco-American attack was made largely for the purpose of producing a moral effect and says, in veiled reference to the heavy German losses:

"It is a pity events took the course they did, because this enables the enemy, especially the Americans, to represent the evacuation of the salient as an important and material success. This especially is true, for, judging from American reports, our losses, of prisoners appear to be not inconsiderable."

Saved by Australian Troops.

The paper admits that the German troops in the sack of the salient were in danger of being cut off, and gives credit to the Austro-Hungarian troops for having saved them. The Frankfurter Zeitung does not go as far as other newspapers which declare the "enemy's project failed." It qualifies this by saying, "In the main it failed." But it adds:

"It is, however, undeniable that the initiative is still in enemy hands."

MINERS NEEDED HERE MORE THAN IN THE TRENCHES.

That it is the patriotic duty of mine workers to apply for deferred classification was the keynote of a speech delivered at White Sulphur Springs, West Va., Sunday, Sept. 15, by James B. Neale, Director of Production of the U. S. Fuel Administration. Mr. Neale spoke at an important meeting of coal operators, mine superintendents and officials of the New River coal fields of West Va., a district which contributes the major share of the 35,000,000 tons of coal used by the Navy.

Greetings to the meeting from Fuel Administrator Harry A. Garfield, who was unable to be present, were read. Addresses were made by Governor J. J. Cornwell, E. E. White, and by P. B. Noyes, Director of Conservation of the Fuel Administration.

The speech of J. B. Neale commended the miners and officials for their patriotic efforts to produce more coal. He cited instances of mine officials working on Sunday and congregations of churches working in the mines at night, contributing their earnings to the Red Cross.

Backing his plea by quotations from the proclamation of President Wilson and from utterances by Cardinal Gibbons and other American leaders, Mr. Neale urged that it was as much an obligation for a true American miner to mine coal as it was to work in the trenches. He pointed out that all war material, munitions, guns and shells, depend on coal, and in the face of the great need too much effort could not be expended in bringing coal production up to the requirements of the war needs of the nation.

Speaking of the car supply Mr. Neale said that operators should not ask for more cars than their mines could actually use on any given day and he explained that the new system of car rating inaugurated by the Railroad Administration would provide for each mine receiving only, but exactly, the number of cars which its actual performance in mining coal indicated it could load from day to day.

Speaking in high praise for what had been accomplished in the past, the Director of Production yet urged the mine workers and operators to still greater efforts and he pointed out that it has been the task of the Fuel Administration to encourage throughout the mining fields a patriotic spirit, the fruits of which should be exemplified in a spirit of fairness and courtesy to everyone engaged in the coal industry.

THAT KNIFE-LIKE PAIN

Is Only One of Nature's Warnings of Weak or Disordered Kidneys.

Have you a lame back, aching day and night? Do you feel sharp pains after stopping? Are the kidneys sore? Is their action irregular? Use Doan's Kidney Pills—the medicine recommended by so many Hartford people. Read this case:

R. H. Gillespie, blacksmith, Union St., Hartford, says: "As my trade caused me to do quite a bit of hard work and bending over, I suffered severely from backache. Sometimes it seemed as if my back were pierced with a knife, the pain was so sharp and severe. The action of my kidneys was too frequent and the kidney secretions were scalding and highly colored. Doan's Kidney Pills, procured at Williams' drug store gave the best of results, and I am glad to recommend this medicine."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Gillespie had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD.

Published daily at the price of a weekly. No other newspaper in the world gives so much at so low a price.

The value and need of a newspaper in the household was never greater than at the present time. The great war in Europe is now half-way into its third year, and whether peace be at hand or yet be far off, it and the events to follow it are sure to be of absorbing interest for many months to come.

These are world-shaking affairs, in which the United States, willing or unwilling, is compelled to take a part. No intelligent person can ignore such issues.

The Thrice-A-Week World's regular subscription price is only \$1.00 per year, and this pays for 15¢ papers. We offer this unequalled newspaper and The Hartford Herald together for one year \$1.75.

VOLUNTEER DAYS TO OPEN FOURTH LOAN CAMPAIGN

LIBERTY LOAN DRIVE OPENS SEPTEMBER 28 AND WILL CONTINUE FOR 3 WEEKS.

VOLUNTEERS HAVE TWO DAYS

Citizens Are Urged to Make Their Pledges on First Two Days, September 28 and 29.

The Central Committee of the Eighth Federal Reserve District has set aside Saturday, September 28, and Sunday, September 29, the opening days of the Fourth Liberty Loan Campaign, as "Volunteer Subscription Days."

It is intended that on these two days opportunities shall be provided for all citizens in the district, to voluntarily, without solicitation, subscribe for Fourth Liberty Bonds.

The directors of publicity are requested previous to the opening of the campaign, to arrange for publicity throughout all counties and cities, bringing to the attention of the people the opportunity of expressing voluntarily their patriotism and loyalty, by buying Liberty Bonds.

Churches Will Help.

The director of speakers will arrange to have patriotic speeches and mass meetings on these days, and all churches on Sunday, September 29, will have patriotic sermons preached.

Sales Director Vincent L. Price has issued instructions to each county chairman and director of sales requesting their co-operation on the plan. Places must be provided in each locality, where the people may enter their subscriptions, and ample publicity must be given. Director Price suggests that booths, offices, stores and banks may be used. The factories should be organized for "Volunteer Day," and some one present to receive subscriptions.

It is expected that the Women's Division will have an important part in the work of "Volunteer Days," and they should be included in all plans.

The work of subscribing on Sunday, September 29, will be largely through the churches, and the Liberty Loan Workers are particularly instructed to see that the pastors of each church is advised of the plans, and requested to aid in the work.

Buttons and Flags on Hand.

The head of the sales department in each community is expected to see that subscription cards, Liberty Loan buttons and individual honor flags are at hand. These supplies may be obtained through the Central Liberty Loan Organization at St. Louis.

Mr. Price says that it is felt that this idea of Volunteer Subscription Days is wanted by the people and that they will respond to same readily and liberally. If such proves to be the case it will be a movement toward simplifying and shortening the Liberty Loan Campaign.

In France and England the Loans are all taken by Volunteer Subscriptions.

The Loans are announced by the right kind of publicity, places and means for subscriptions are provided and the people take the Loans.

That's all there is to it there—why not here?

GIVING.

By Mary Carolyn Davies.

Just Money That is all we're asked to give.

He gave his life, Jim. He'd have liked to live.

For Betty—bless her shy young heart had only

The week before he left, put on his ring.

How long her life will be for her, how lonely

With nothing of him but remembering!

She never flinched, nor he, my son, they gave;

She working still, and Jimmie in his grave.

And now today we're asked again to save,

And give, give the country what we've sown

And toiled to earn. It's hard to all—

And yet,

We safe, we calm, we fortunate, we living,

I wonder, dare we, dare we call this giving

Remember Volunteer Days—September 28 and 29.

If the right kind of a response be made on Volunteer Days—Sept. 28 and 29—the Fourth Liberty Loan Campaign will be given such an impetus that the allotted three weeks will not be required to sell the bond issue.

In France and England all the loans to prosecute the war are taken by Volunteer subscriptions. Two Volunteer Days—Sept. 28 and 29—are set aside to open the Fourth Liberty Loan Campaign. Every one should place his volunteer subscription on one of these two days and not wait for the collectors.

VICTIMS OF HUN BRUTALITY

How Allied Soldiers Suffered When They First Experienced the Horrors of Kaiser's Poison Gas.

Suddenly a great cry rang out:

"The gas!" It was true. Over there from the enemy's lines, came great greenish balls, rolling close to the earth, rolling deliberately yet swiftly, rolling straight toward us, Emmanuel Bourcier writes in Scribner's Gas! That horrible thing, still almost unknown, which had been used for the first time only recently on the Yser. It was coming with deadly surety amidst a tornado of artillery. Orders were shouted back and forth:

"The gas! Put on the masks!" Each man spread over his face the protecting cloth. The shelters were closed. The telephone, whose wires ran the length of the communication trenches, gave the warning: "Look out! The gas!"

We did not yet know what manner of horror it was. None of us had experienced an attack of the sort. We ran to and fro like ants whose hill has been molested. Some fired their guns at random, others awaited orders. The frightful, vivid thing came on, expanded to a cloud, crept upon us, glided into the trenches. The air was quickly obscure. We were swimming in an atmosphere stained a venomous color, unclean, indescribable. The sky appeared greenish, the earth disappeared. The men staggered about and rolled on the ground, stifled. There were some knots of soldiers who had been asleep in their beds when overtaken by the gas. They writhed in convulsions, with vitals burning, with froth on the lips, calling for their mothers or cursing the Germans. We gathered them up as best we could; we took them to the doctors, who, thus confronted by an unknown condition, found themselves powerless. They tried the application of oxygen and other in an effort to save the lives of the victims, only to see them die, already decomposed, in their hands.

The masks had not yet been perfected and were a poor protection. Some ran about like madmen, shrieking in terror, the throat choked with saliva, and fell in heaps, in contortions of agony. Some filled the mouth with handfuls of grass and struggled against asphyxiation.

Saved Ship From Destruction.

Capturing a runaway bomb on the deck of a ship during a terrific gale, a United States navy man heroically held on to several hundred pounds of high explosive until it was got to safety. This man of iron nerve is John Mackenzie of the naval reserve, who is serving as a chief boatswain's mate on the U. S. S. Rendits, a converted yacht now on patrol service in European waters. For this extraordinary heroism Mackenzie has been awarded a medal of honor and given a gratuity of \$100. In the midst of a storm a death charge, such as have proved so disastrous to German submarines, broke loose and went rolling about the decks. Realizing the danger, Mackenzie shouted out, "I'll get her!" and lunged himself upon the charging cylinder. Three times he was thrown from the bomb. The fourth time he got it and, heaving the charge upright, sat on it and held it down. Here he remained until lines were placed around the bomb. And the charge exploded it would have blown the ship to pieces. Mackenzie is a native of Massachusetts and his mother, Mrs. Mackenzie, resides at South Hadley Falls, Mass. After serving four years in the regular navy he returned to service in the fleet naval reserve.

Burglary Among Nonessentials.

Among the nonessential industries which are almost in a state of collapse is the ancient and sinister one of burglary. According to data furnished by a burglary insurance company there has been a decided and favorable change in the attitude of chronic recidivists since the executive proclamation of a few weeks ago, directing all able-bodied men between eighteen and fifty years old to turn their hands to industrial pursuits. The draft, high wages and federal and state surveillance promises to reduce crime almost to the vanishing point. Many sociologists and criminologists of the modern school will point to this as proof of their theories that poverty is the principal cause of crime. It will no doubt be a powerful argument in favor of a revision of criminal laws after the war.

Had Her Hands Full.

An amateur mission worker flattered into one of the West side offices of the Associated Charities.

"Oh," she exclaimed, "I have the saddest case for you. Really, it is quite pathetic. A woman, who has been deserted by her husband, has five little children to support. She is too frail to work, and I'm sure there isn't enough in the house for their next meal!"

"But what is to prevent you from taking charge of this case yourself?" asked the official.

"Oh," said the visitor, drawing herself up haughtily, "I couldn't think of it, you know. Why, I'm doing the Lord's work!"—Chicago American.

He Is Really Peaceful.

"They call me a hard guy," whanged the would-be tough individual.

"They do, do they?" hissed the sheriff of Lone Wolf county, shaking him by the coat collar.

"Yes, they just call me a hard guy back home," was the reply, "but really I got a soft disposition."

TRIBUTE TO HEROES

OF THE MARNE.

Paris.—All France paid tribute to the heroes of the Marne in celebration of the fourth anniversary of the historic conflict. The celebration took on an added significance from the recent series of victories over the same fighting ground as four years ago and the participation of American troops in the new battle of the Marne.

Although the day was overcast, there was a great pilgrimage to the battle fields, and many ceremonies were held in villages slowly recovering from the devastation caused when the Germans made their first sweep toward Paris. The principal function was at Meaux, which bears the scars of the battle four years ago. Memorial services were held at the Meaux Cathedral and were attended by representatives of allied Governments, the army, navy and all branches of public life. An impressive discourse was delivered by the Bishop of Arras, who likened the battle of the Marne to the miracle which brought about the relief of Orleans.

On the battlefield Jacques Dumesnil, Under Secretary of War for Aviation, made an address on behalf of the French Government. Other ceremonies were held in many cities throughout France. General Pershing sent a magnificent wreath, on behalf of the American army, to Meaux, which Bishop Marbeau placed it among the graves on the battlefield. Two other wreaths were placed in the cathedral at the foot of the statue of Joan d'Arc. One wreath was inscribed "from the American Soldier" and the other was from the Knights of Columbus.

The graves of 30 American soldiers, who died in the American hospital at Meaux after the fighting at Chateau Thierry, were not forgotten. Bishop Marbeau recited a special prayer in the little cemetery. General James G. Harbord represented General Pershing at the ceremonies.

Teaching the Boys to Sing.

A distinguished young musician recently joined the English army for the purpose of teaching the boys to sing. Attached to the royal air force, he has been commissioned to train the men at the various centers in choral singing, thus dispensing with the necessity for bands. The effect upon the spirits, the morale and the discipline of the men has been excellent. They have developed a keen interest in singing, and many of them have been found, to their own surprise, to possess excellent voices. In view of the success of the movement, it will probably be extended to other branches of the army, especially where the formation of a band is out of the question.

Improves Revolver.

By providing the ordinary revolver with a circular cartridge frame or clip, Joseph H. Wesson of Springfield, Mass., has given the older weapon all the convenient features of the newer automatic weapon; that is, the rapidity of fire and quick reload. His clip, holding five or six cartridges in position, serves to push them into place in the revolver barrel at one operation, instead of individual loading, as is usually the case.

A SOLDIER'S REASONING.

A St. Louis soldier in France, writing home to his mother, says: "New Liberty Bond drive this fall. I am going to take \$500 worth. Best investment in the world and every dollar invested brings us home that much sooner." And that, as George Patton would say, is the "obscure truth."

Get ready for the Big Push—put the Fourth Loan over the top during volunteer days.

First the blade, then the ear, then the full corn in the ear—then frost and shuckin' time!

If we were looking for soft snaps, we would go to Germany and go into business as an undertaker.

While the boys go over the top and smash the Huns in Europe, let us carry the Fourth Loan banner over the top and on to victory here.

It is said the Germans are cremating the bodies of dead soldiers and using the ashes for fertilizer. If they ever use our bones to fertilize their kraut-cabbage, we are going to come up "kirkle-burrs."

In the words of Marse Henry, "God help us if this war ever gets into politics." Yes, the ages would echo the horror and the shame if we allow the standard of our high ideals to be trailed in such ignoble dust.

The German press assures the German people that they won the St. Mihiel battle, where the Americans pushed them out of a thirty-six mile sector and took thousands of prisoners. Of all the laughable things we have heard of, this is the limit.

It may be indifference or inertia, or something else, but when people plainly prefer some other government to the American, and publicly say so, we can find no better name for it than disloyalty. And we have people in Ohio county who have done this very thing.

From reports coming from different parts of the county, the frost of the last few nights did not do the damage to the crops which many feared. It seems in most places there is a record crop of tobacco. With the prospect of higher prices than ever known before, the farmer's prosperity is undoubtedly assured for another season.

We have repeatedly warned our readers that all who are in arrears more than three months must pay up or their paper be stopped. The time draws nigh when we must put this order into execution. If you like The Herald and want it, it is worth paying for; if you don't want it, it should be stopped. Attend to this matter at once.

According to letters received from soldiers, the French moral code and manners are so different from ours that we look upon them as occupying a very low place in morality. However much critics and cynics point the fingers of scorn at wicked America, it still remains evident that our moral standard is the highest in the world—not even the English excepted—our men the bravest, our

women the purest and our laws the strongest and best observed. To reflect upon this makes us feel a glow of pride in the fact that we are citizens of the world's greatest republic, grandest democracy and most enlightened people that ever shoved the wheel of progress.

Another woman is trying to usurp Mrs. Cora Wilson Stewart's honored place as founder of the moonlight schools. No matter what is started, it attains any prominence there will be some one disputing for the distinction of being its starter. History will likely be full of German names, who will be trying to crowd Kaiser Bill off the pedestal of fame, disputing his just claim of being the instigator of the great war.

It is said some nefarious fakirs who wished to open gambling joints out at the fair grounds last week, got their "walking papers." We congratulate the officials who gave them this order. If there is anything despicable beneath the sun, it is one who preys on the innocent curiosity of people, by tempting them to engage in games of chance, with the chance left out. We are glad Ohio County will not tolerate this thing.

The Austrian's veiled note, a feeler for peace, has been flatly refused. We are glad. Several times have they sent out these camouflaged appeals, which were requests for peace on German terms, and the world is growing tired of their persistency. If we remember aright, a peace-note was being considered when the treacherous drive on Italy started; peace was being discussed while Serbia was being dismembered; and if we listen to them now, it will be a peace discussion that will give them the chance to move their big guns to Lorraine. Give them peace at the end of a bayonet—everlasting peace. No peace on earth till it be accompanied by good-will, on Yankoo-Franco-British terms.

Throughout all future ages, France will be a sacred land to Americans. Harry Lauder tells of the solemnity he felt when he approached the spot where his own son had fallen. And so Americans will go for years and years and place wreathes on the spots, marked by the rude wooden crosses where their sons gave their lives for liberty. This ground will be hallowed by the thought that it was stained with American blood and made dear forever to American hearts by the scenes that transpired upon it. For the first time in our history our men have gone overseas to set things aright and it was in France—faisome, chivalrous and romantic France—where fate destined them to lift the banner of right over an outraged world.

GOSHEN LADIES GO TO THE FIELD.

The women of Ohio county have certainly rallied to the standard of patriotism. Numbers of instances have come to our notice of women and girls taking the men's places in the fields when the latter were called to the colors. Only recently when shortage of men to gather the crops, at Goshen, became so acute that it was feared the crops would be lost, a number of well-known ladies went to the field and helped. Besides, they have assisted the farmers in preparing the ground for wheat sowing. Among those who have applied themselves to farm work, may be mentioned, Miss Martha Rhoads, who has helped her father care for his clover and prepare for wheat sowing; Mrs. Sue Blair, Mrs. Oona Luce, and Miss Mattie Luce tramped through a silt for Mr. J. A. Caldwell, while his wife served as engineer for the tractor; Mrs. A. S. Chisholm, Mrs. J. C. Stevens and Mrs. Ella Barnes also helped fill a silt; Mrs. May Miller is also helping her husband house tobacco. The Ger-

mans have made the statement that if the American government continues to call men to the colors, a labor shortage will develop which cannot be filled because American women will never soil their "soft white hands" with manual labor. The above incident, and hundreds of others like it, put the lie to this statement, in proving the boundless patriotism of our women, who are ready to go any length to win the war.

PEARLIE LOGSDON CAPTURED.

Another deserter from the army was apprehended last Wednesday when Pearl Logsdon, son of Mr. John Logsdon, of Rosine, was captured at McHenry, by Marshall Will Langford, of Rockport. Young Logsdon deserted the army some time ago and has since been in the vicinity of Rosine. He was arrested on the track at McHenry, where he was working, last Wednesday evening, and brought to Rockport where he was placed in the lock-up. The Marshall sent word to his wife to send his uniform to him, and she and Hobart Daugherty went down to Rockport and spent the night with him. The next morning he was taken on the early accommodation to Louisville. When the train blew for Rosine, he leaped from the train and tried to escape. He reached the depot platform when the officer caught him, striking him over the head with the butt of his pistol. He bled profusely. It is said he called out to the people not to aid in his arrest as the officer was arresting him for money. He did not resist other than attempting to run. He submitted easily when caught and was taken on to Louisville and turned over to the Federal authorities.

SIX NEGROES LEAVE FOR CAMP THURSDAY.

The Local Board has received a call for seventeen negroes but only has six qualified. Therefore the quota will be short eleven men. The last calls have drawn very heavily on Ohio County's supply and practically all the colored men qualified to go will be in camp after Thursday's number goes. The names of the men who leave tomorrow are as follows:

Charlie Boswell, Hartford, R. 2.
Carl Lawrence, Hartford.
John Dee Griffin, Prentiss.
Leslie Acton, Hartford, R. 5.
Fred D. Tichenor, Hartford, R. 2.
Lonnie B. Maddox, Danville, Ill.

DAILY WEDDINGS.

Taking advantage of the fair week to seal the nuptial vows, three couples presented themselves to Judge Cook, on three successive days, and were made husband and wife.

On Thursday, Audley Atchison, of McHenry, and Miss Ida Ree Stone, of Hartford, had sealed their future bliss by the Judge's authority.

On Friday, Mr. Walton Taylor, of Hazetown, and Miss Cordie Allen, of Kenfrow, were united in marriage.

Then on Saturday, Ben Rogers, and Marie Smith, (of color), both of Taylor Mines heard the happy benediction fall from the Judge's lips, that set them adrift on the course of their future destiny. This completed the trio of one marriage for each of the three last days of the week.

ASSESSMENT NOTICE.

While the law makes it the duty of the taxpayer to come to my office, in Hartford, to assess his property, in order to accommodate the aged, infirm and other persons, upon whom it would work an unusual hardship to come to my office, I will, about the first of next month, publish notice of dates at which I or one of my deputies will appear at the voting place in each of the remote precincts where such taxpayers may meet us to assess their property.

WRITES HIS WIFE.

Somewhere in France.

Mrs. Ella Smith.

Dear Wife: I will write you a few lines to let you know I am well and hope when these few lines come to hand, will find you well and enjoying life. I have been gone from the Company some time and could not write while I was gone. I have been working for the Quartermaster, but am back in the company now. I will write every two or three days until I hear from you. I have not heard from you but one time since I have been in France. So I want you to write to me and tell me how you are getting along. Did anyone work on the place this year? How are crops looking back there? Well, did you have a good garden this time? Have you got lots of frying chickens? I hope to be at home in time to help you eat them. Not knowing if this will reach you or not, I will close and write more next time. So be a good girl and think of one who is thinking of you. Tell all hello for me.

G. W. BASS, CAR INSPECTOR ENJOYS GOOD HEALTH AGAIN

VI-TO-NA Brings Him From Run-down Condition to Normal Health.

He Praises VI-TO-NA.

"Kidney and stomach trouble, that was it," said Mr. G. W. Bass, read, and whose residence is 225 South Whiteford Avenue, Atlanta, Ga.

"I suffered from kidney trouble so long I tried so many kind of medicines and got no relief until I just thought I would have to go through life enduring those awful pains in my back. Rheumatism had me also. Yes, sir, my joints pained me something awful. I was naturally nervous from all this, so night was no welcome visitor to me, for I could not sleep. I had no appetite and my stomach was in such bad condition I couldn't eat even the few things my appetite called for."

"How about me now? Well, take a look at me. Come down to the house and watch me eat at meal time. I can eat anything I want now, and as much as I want, with no bad after effects."

"Kidney trouble? Oh, yes, that's all gone too, no sign of it, and now I sleep just 'fine and dandy.'"

"Just got to give VI-TO-NA credit for the whole business, nothing else but VI-TO-NA it's THE FINEST EVER."

Now, isn't that a good statement, coming as it does from a clean-cut, square fellow like Mr. Bass. It just proves that VI-TO-NA is a positive success and LEADS the rest follow.

WHAT VOLUNTEER DAYS REALLY MEAN

Compelling Subscriptions, Sept. 28 and 29, will be Big Impetus for 4th Loan.

One of the principal reasons why the Liberty Loan Organization has designated September 28 and 29 as "Volunteer Days" is to give a final and definite answer to the German claims that America is not solidly behind the war. It is expected that the subscriptions, great and small, to the country's call for funds on those two days will furnish a reply which will be like a blow between the eyes to the Kaiser and his advisors.

Thousands of prospective subscribers to the Fourth Liberty Loan have signified they want the satisfaction of applying for their quotas without solicitation. They can display their patriotism more effectively by coming forward unasked and signing up than waiting for the solicitor.

On Sunday, September 29, clergymen of all denominations will make strong appeals to their congregations in favor of these loal. Their theme will be the necessity of backing up our carriers in France by supplying the financial requirements of the Government. Exhortations for the day will be to save soldiers rather than souls.

Business houses are encouraging their employees to swell the number of subscriptions on the two volunteer days. A mighty impetus is expected to be given to the entire drive by example of the thousands who will surge forward to get example for the millions who will constitute rank and file of buyers of the new loan.

It is expected that schools throughout this district and over the entire country will feature the two-day period of preliminary subscriptions. Teachers and principals will explain the meaning of the movement, and emphasize the significance of going over the top early with subscriptions. Children will be urged to impart to parents and friends the news of the volunteer days.

There will be work in abundance for the army of solicitors when the actual drive gets under way, and a bulky showing in names and totals well the quotas of the various estimable degree in drawing the subscriptions later on which will swell the quotas of the various districts, and finally put the loan as a whole across with gusto and acclaim far exceeding that of the preceding issues.

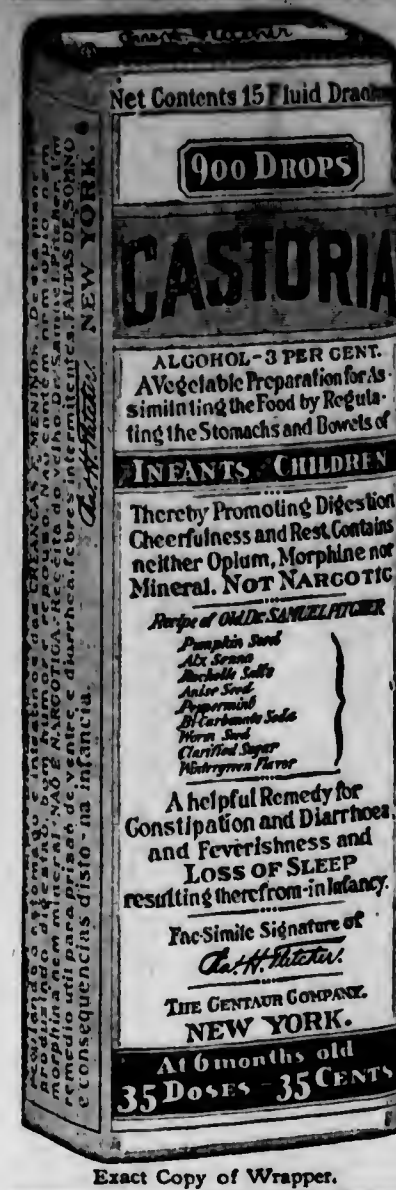

Volunteering on the two days does not only mean specifically buying bonds, but as well includes giving every sort of unsolicited service to make the loan a success. Every man, woman and child in the country, should become a working unit to boost subscriptions. Everyone is expected to tell to his friends all he knows good about Liberty Bonds as an investment and a patriotic service, and to leave no stone unturned to promote their sale.

High officials in the loan organization believe the two volunteer days will be an important factor in making the present issue a popular one. Every volunteer will feel a personal interest in the outcome, for the main reason that he has done something to attain that great object. Progress during the heated days of solicitation will be closely watched by those who were initial and volunteer workers, and until the full amount asked by Uncle Sam is safely in bank available for the needs of our boys in France and the other fighting lines.

VI-TO-NA is a positive success and LEADS the rest follow.

LETTER POSTAGE 3 CENTS

YOUR OWN FLESH AND BLOOD NEEDS HELP OVER THERE

THE SALVATION OF THE WORLD DEPENDS ON THE ARMY OF 5,000,000 THAT UNCLE SAM IS RAISING.

TO TAKE FLOWER OF AMERICA

Billions of Money Required to Properly Equip and Care for the Forces That Are Fighting Your Battles.

Uncle Sam is rapidly preparing for an increase of his fighting forces to an aggregate strength of 5,000,000 men. This was the figure agreed upon in the Paris conference of several months ago as necessary to a speedy allied control of the situation and eventual victory for allied arms. America alone could produce the men.

France already has put practically every available man in the ranks. England has drawn upon her man power to a point that is beginning to make itself felt in the production of war munitions. Belgium has all of her little remnant of population lined up along the front almost to a man. And Italy has all she can do to care for herself.

This five million will represent the flower of America's fighting material. Upon it will depend to no small degree the ultimate issue of the war. To it all Europe will be looking. It takes the field aggressively. It is expected to be the straw that will break the Prussian camel's back.

We must do our full duty by that five million in the next hour.

And in doing this we must not overlook this fact. In its ranks will be thousands and thousands of boys who are now at home. Some of these will be from our own firesides. They will be our boys in literal truth. No longer will that army be an impersonal unit. It will be made up largely of our own flesh and blood.

Every time you buy a bond you will be lending to your own. For few households will escape the coming process of the next draft.

Don't forget this. The Fourth Liberty Loan campaign opens Sept. 23. Your country and your sons need your help.

If you have a son eligible for service, look him over before you decide upon the amount of your purchase.

You'd give a good deal more than will be asked of you to have him safely back.

And the better prepared that army is the sooner it will finish its work; the less danger he will be subjected to; the quicker he will return. Do your part by that five million—and your boy. Get ready to do it early.

PATRIOTISM AND PER CENT

Interest Rate on Fourth Liberty Loan Fixed at 4 1/4 Per Cent.

Secretary McAdoo has definitely announced that the Fourth Liberty Loan bonds will bear 4 1/4 per cent interest.

The Secretary has been insistent that the Government interest rate should be stabilized at 4 1/4 per cent. He points out that a raise in the rate of interest of only one-fourth of 1 per cent on \$10,000,000,000 of Government bonds would mean an annual increase of \$25,000,000 in interest charges, and that this money would have to be raised by increased taxation and paid by the people of the country. It would not be paid by one class only, because there are consumption as well as other kinds of taxes, and the consumption taxes reach every class of people.

"As an intelligent people," said Secretary McAdoo during the Third Liberty Loan campaign, "we should now make a stand for the financing of our Government during the period of this war at a stabilized rate of interest, say at 4 1/4 per cent per annum, so that all business and all investments may be adjusted to that basis, and so that we ourselves may protect ourselves against successively increased rates of interest on Government loans."

CLASS IN ARITHMETIC WILL PLEASE RISE

Q.—How much will a dollar buy today?
 A.—About what sixty cents bought yesterday.
 Q.—How much will a dollar buy tomorrow?
 A.—About what a dollar and sixty cents buys today.
 J.—Then I'll make a lot of money just by saving what I have, won't I?
 A.—You certainly will.
 The purchase of Fourth Liberty Bonds is the best way to save.

BIG FLEET OF ALLIED AIRMEN HELPS AMERICAN DRIVE ALONG.

Powerful air attacks around Metz and throughout the region in the rear of the German Armies in Lorraine have been made by the great forces of Allied flyers gathered to help the American drive. Even Italian planes are engaged with the Americans, British and French.

An idea of what is being done is given in communications issued by the British and French authorities to-night which add to the brief mention of this work in Gen. Pershing's statement. The British report says:

Two further attacks were made on Metz-Sablon in the late afternoon, and many direct hits were obtained on the railway triangle, on the workshops, the gas works and the barracks. The Boulay airdrome was also attacked with good results. Heavy attacks were kept up throughout the night of Sept. 14, 15 on Metz-Sablon, Courcelles, Ehrange, Saarbruecken, Kaiserslautern and the airdromes at Frescaty and Boulay. Many direct hits were obtained on the railway, especially at Metz-Sablon and Courcelles, and several fires were started at Metz, Kaiserslautern, the Saarbruecken station and the Frescaty airdrome. Three of our machines failed to return.

This morning the railway triangle at Metz-Sablon was again attacked and many direct hits were obtained. Enemy scouts were active. Bombs were also dropped on the Buehl airdrome. Three of our machines are missing.

To-day the Dalmier works at Stuttgart were also attacked with good results. During this raid twenty enemy aircraft were encountered and two were destroyed. Our machines all returned safely.

The total weight of bombs dropped during the twenty-four hours was more than twenty-seven tons.

The French statement to-day said: On Sept. 12 and 13 our airplanes participated actively in the offensive operations of the American Army. In spite of strong winds, low clouds and rain our bombing and pursuit squadrons attacked troops and convoys in the region of Conflans, Charnley, Vigneulles-les-Hattonchateau and Mars-la-Tour. Seven enemy planes were brought down or put out of action and one captive balloon was burned.

Our observation squadrons, flying in the storm, did not cease to inform the command of the situation on the battlefield and of the progress of our troops who were supporting the American units.

AMERICAN POLES SUPPORT FOURTH LOAN.

All Denominations Loyal, Catholic Pastor Says—Would be Slackers in Failure.

The pastor of the Polish church at Leadwood, St. Francis county, Mo., Rev. Julian Maczydlowski, possesses a large portion of the spirit of service that is prompting pastors of all denominations to support the Government in the Liberty Loans.

American Poles will double what they did in the Third Liberty Loan, the subscriptions then amounting to \$37,583,700, he says. His idea is that it is not a time for talking but for action, for the Government needs action more than ever.

"I am sure that clergymen of all denominations," Father Maczydlowski said in a letter to the Liberty Loan Organization, "will assist the Government in selling the Fourth Liberty Loan Bonds, because they know

that this war is a fight for the principles of Christianity and humanity.

"If the clergy and the churches would not support the Government in such a noble cause, they would not only be slackers, but enemies of the country."

"It will never happen. All churches and nationalities will support the Government in the drive for the Fourth Liberty Loan as they did before."

"If we want to win; if we want to beat kaiserism and Prussianism we must support our Government by giving, loaning money to it, which is the best investment in the whole world."

"Our boys are doing nobly on all the fronts. They gladly give their lives for the honor of our country and they ask us to help them. Will we be deaf and ungrateful? God forbid it. Everyone of us will do his part and victory, noble victory, will come. Then humanity and liberty will reign everywhere."

TRY THIS FOR BILIOUSNESS.

A bilious condition is indicated by loss of appetite, pain in the side, back and shoulders, restlessness at night, and a furrowed, foul tongue. There is often a feeling of depression, the eyes are dull, the face is sallow, and quite frequently constipation or diarrhea occurs. When any of these symptoms are present, a course of VIN HEPATICA is at once needed. Begin with a full dose to remove the poisonous matter from the bowels, and continue for a few days with a smaller dose.

Mr. W. B. Scruggs, of 3 Driftwood Street, Nashville, Tenn., who had been subject to spells of indigestion, cramps, and bilious colic for a long long time, writes: "My last spell came very near getting me. I got to the point where I didn't have any appetite, was all run down; couldn't sleep. But I took VIN HEPATICA and my appetite is again normal. I feel better in every way and have like doing my work. Don't have to get up at night, sleep well, and can heartily recommend Vin Hepatica."

You can get this wonderful Vin Hepatica treatment only at G. & O. Drug Co., Hartford, 100 Marshall Street, Rockport, Ky. McHenry Coal Co., McHenry, Ky.

The Human Factors In Good Service

There are three parties to every telephone conversation—the party calling, the trained operator, and the party who answers. All three share alike the responsibility for quick and accurate telephone service.

The calling party should give the correct number in a distinct voice, speaking directly into the transmitter, and wait at the telephone until the party answers or the operator reports. The called party should answer promptly.

Patience on the part of the telephone user and the telephone operator is also essential to good service.

Read the casualty lists in the papers and ask yourself: "How long shall I permit this to go on?" There is only one answer: **"I will do my utmost to help equip and put into the field an American army that will make short work of the hun and put a stop to the shedding of American blood."**

Be a Volunteer

September 28th and 29th Will Be Volunteer Days

On these days everyone will be given an opportunity to step up and buy bonds without being solicited to do so. Places will be designated where volunteer subscriptions will be received. These places will be announced in the papers and by signs. Your card will be on file there. Cards of those who do not volunteer will be used for active solicitation, which will begin Monday, September 30th. No one will be overlooked.

Do not wait for some one to come after your subscription. Show that you, too, can volunteer for your Country's service, just as our boys "over there" did.

Figure out now the very maximum you can subscribe. Be ready when Volunteer Days come. This is no time for half-way measures. Half-way measures won't push our

The hope of the world lies in the sons of America.

They are "Over there" now—a million and a half strong; they are going over daily—million and a half more of them. Another million and a half are waiting for the call that soon will come.

Those who have been under fire have demonstrated superbly the qualities that make fighters—they have shown that the barbarous hun is no match for them.

Many an American son has gone down—has made the supreme sacrifice for his Country and liberty. Before the german horde is driven back within its own borders, many more American sons will go down. How many, depends upon us at home.

A small American army, no matter how brave will inevitably suffer severe casualties. A gigantic American army will overwhelm the hun and bring quick victory with the least loss of life.

The lives of our sons are in our hands. The boys are ready, willing and eager. They must be trained and equipped. No time must be lost. It is up to us to provide the money necessary to make these boys invincible. We must do it and do it quickly. With our own sons already in the fight, every day's delay lays at our own doors the blood of brave American sons.

boys across the Rhine. It is up to us to buy bonds with every uninvested dollar we own, plus every dollar we can save by careful, frugal living for six months to come.

You don't have to pay all cash for your bonds. You can make your first payment from cash in the bank, and take care of the balance out of your daily, weekly or monthly savings.

The forced saving you do now will mean a nice nest egg later, for the bonds you buy now and pay for as you go along, will prove a splendid investment that will pay you good interest every six months. After the war, the bonds will be worth more than you paid for them. Don't hesitate to do your duty and do it quickly. "Don't let the SON go down."
